Weather Days

Just a reminder that if busses are cancelled and your school is open to students, you are not required to teach online.

If schools are open, members will deliver their program in a face-to-face model.

Smartfind

We have communicated to the board the frustration members feel about logging in to Smartfind to enter weather days when schools are closed. We have shared that this is an onerous task when members are working to pivot to online learning for the day.

At this point, the board has not communicated a commitment to change this practice.

International Women's Day

March 8, 2021 is the 110th anniversary of International Women's Day - one of the most important days of the year to celebrate the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity. Significant activity is witnessed worldwide as groups come together to rally for women's equality. How that will take place in 2021 we cannot say. But we also cannot let the day slip away without celebrating it in these extraordinary times.
